Submitted Code: 0 minutes ago

Language: python3

Edit Co

```python
class Solution:
    def maxSubArray(self, nums: List[int]) -> int:
        maximum = nums[0]
        current_range_sum = nums[0]
        for i in range(1, len(nums)):
            current_range_sum = max(nums[i], nums[i] + current_range_sum)
            maximum = max(current_range_sum, maximum)

        return maximum
```
